

Full-service solutions for loading and managing vehicle data

SEAMLESS END-TO-END VEHICLE ENTRY AND DVLA REGISTRATION SERVICES IN THE UK

Let Kroschke UK Ltd handle your vehicle entry into the UK and ongoing management - delivering a seamless, end-to-end solution from bringing your vehicles to market to entry and management on the DVLA RAV Secure registration scheme to final registration services.

TYPE APPROVAL MANAGEMENT

- Full GB type approval: We can guide you through the full GB type approval process, ensuring compliance
- GB provisional type approval: We handle the transfer from EU type approval to provisional GB type approval

COMPLETE VEHICLE MANAGEMENT SOLUTION

- We set up, maintain, and manage DVLA's registration system – RAV system, including seamless vehicle data uploads, distribution of vehicles to your dealer network, and comprehensive RaV audits aligned with best practice standards
- Keep stored/unsold vehicles under your control until you decide they can be passed to dealer and/or purchaser
- We manage the Registration and ongoing maintenance of your vehicles onto the insurance database – ABI, Glass's and CAP
- We manage the vehicle registration process – this includes allocation of number plate and assignment of vehicle to owner. We can even supply the number plate.

LOGISTICS & COMPLIANCE

- We provide advice on logistics, storage, and distribution of vehicles for the UK market, including warehousing solutions and comprehensive UK import support

OTHERS

- We provide professional support throughout the DVLA recall process
- We manage the preparation and submission of the End of Series procedure, including derogations for unsold stock
- We offer a vehicle plate printing service

BENEFITS

Peace of mind through full compliance with DVLA

Cost-effective outsourcing, saving on training, salaries, and infrastructure

Access to a European team of experts supporting UK operations and international market entry
